Scale 1:5; looking down (along -Z)

FRONT VIEW

Scale 1:5; looking at the front (along +Y)

RIGHT VIEW

Scale 1:5; looking at the right side (along -X)

HOW TO MAKE IT AND HOW IT FITS

One blank: top 320 x 100 mm in the middle; front and back 320 x 48.5 mm; ends 100 x 48.5 mm, each with an 18 mm flange; 12 mm tabs on the ends of the front and back.
Cut with aviation snips; drill 3 mm relief holes where folds cross.
Fold the front, back and ends down 90 degrees; fold the tabs round the corners and rivet each with two 3.2 mm steel rivets.
Fold each end flange 90 degrees outward, flat with the bottom edge.
One 10 mm hole in each flange, 10 mm out from the end wall, central.
File every cut edge smooth; wear cut-resistant gloves.
Fit: open bottom on the plate over the holders; two M4 knurled thumb screws through the flanges into rivet nuts in the plate.
Check: it sits flat with no gap under any wall.

CELLCHECK
